The following presentations are being made only to, and is only directed at, persons to whom such presentation may lawfully be communicated ('relevant persons'). Any person who is not a relevant person should not act or rely on these presentations or any of its contents. Information in the following presentations relating to the price at which relevant investments have been bought or sold in the past or the yield on such investments cannot be relied upon as a guide to the future performance of such investments. This presentation does not constitute an offering of securities or otherwise constitute an invitation or inducement to any person to underwrite, subscribe for or otherwise acquire securities in any company within the Telenor Group. The release, publication or distribution of this presentation in certain jurisdictions may be restricted by law, and therefore persons in such jurisdictions into which this presentation is released, published or distributed should inform themselves about, and observe, such restrictions. This presentation contains statements regarding the future in connection with Telenor's growth initiatives, profit figures, outlook, strategies and objectives. In particular, the section 'Outlook for 2007' contains forward-looking statements regarding the group's expectations. All statements regarding the future are subject to inherent risks and uncertainties, and many factors can lead to actual profits and developments deviating substantially from what has been expressed or implied in such statements. These factors include the risk factors relating to Telenor's activities described in Telenor's 2005 Annual Report on Form 20-F filed with the Securities and Exchange Commission in the USA under the headings 'Cautionary Statement Regarding Forward-Looking Statements' and 'Risk Factors' (available at [www.telenor.com/ir](http://www.telenor.com/ir)).

The situation in Kyivstar, as described in Telenor's annual report, has continued in the second quarter of 2007. Storm LLC (the other shareholder in Kyivstar) and Alpren, another Alfa affiliate, has commenced three actions in Ukrainian courts seeking injunctions and other relief. One injunction requested by the Alfa affiliate, Storm LLC remains in effect and prohibits Kyivstar's management from providing financial information to Kyivstar's international auditors and its shareholders, including Telenor. Telenor contests these actions to the extent permitted by the Kyivstar shareholders agreement. Consistent with that, Telenor has pursued its claims through arbitration proceedings in New York and seeks appropriate legal redress.

Since Telenor has not received financial information from Kyivstar during the first and second quarter of 2007, Kyivstar is presented in one line in the balance sheet under 'Investment in Kyivstar', with the same value as of 31 December 2006, adjusted for currency effects. No profit and loss figures for Kyivstar have been included in the first and the second quarter. Figures for 2006 for the Group include unaudited figures for Kyivstar.
